History

SONGS FOR GIRLS ARE INDEED EASY TO SING.

GUESS HE DIDN'T HEAR MY VOICE...

My voice is just like that of a girl.

I didn't want to be made fun of because of this voice anymore.

I was often teased, and was bullied, too.

When everyone's voice started to change, I ended up falling out of the place.

With that in mind, when I entered a high school far away from my home town, I stopped speaking as well.

But

I just can't stop singing!!

I love singing and listening to music ever since I was a child.

Even though I now can't say a single word in front of people,

I still go karaoke and let my voice go wild like this.
